TRIGILITY TEAM INFORMATION – please read

Any Trigrility entries that have not committed to a team as of Aug 15th will be selected by computer/draw, this will be necessary in order to be able to have the time required for the ribbon awards company to have the time to make the championship order.

- **Please note it is the also the responsibility of the entrant to ensure they have checked with their teammates, that each member of this team has entered the correct dogs on the team. (you may only run 1 time)**
- **Last year we had a number of entries that had this type of situation (i.e.)**
 - **Fido was listed with Rover and Spot, but Rover's entry had totally different dogs and Spot's entry had one of the dogs and not the other. (please check with your teammates – ensure you are a team)**
 - **Some entries had a dog that was on numerous teams (and they had not been asked).**
- **Each entrant is also responsible to ensure that the dogs on the team are entered at the correct level (i.e. Intern or Specialist).**
 - **Some teams had Intern and Specialist levels mixed (must be from all the same level)**

Any teams that have incorrectly entered as of Aug 15th will also be selected by computer.

Each competitor will be invited to the DOCNACHampionships@yahoo.com list; this is a good resource to find teammates.

Regional and National North America Challenge Event

On Saturday at both locations, the **North America Challenge Event** will take place. Judges will set the course by mid-line tape measure on Friday night after the last event. Each course will be set to the best of the abilities of the course building teams. The courses will be measured 3 times to ensure accuracy. Both courses will be adjusted for distance until yardage at both locations is the same. All dogs entered will run on Saturday, but no results will be given out until Sunday. On Sunday, each location will announce the Regional Winners for each division and height. At a coordinated time, following the regional awards, the National Winners for each division and height will be announced.

All competitors entering the North America Challenge may choose which of the locations they wish to enter. In doing so, the competitor realizes there may be differences in surface, weather conditions, including but not limited to (wind, rain, sun, heat, etc). In addition, there may be differences in agility equipment; warm up areas; it is understood by the competitor there will be regional differences; the course yardage will be the same at both locations.

- DOCNA supports the desire of these dogs to play in agility and be part of championships, and we extend these dogs with the opportunity to earn certificates of Achievement and NAC Regional Medals.
- Placements are not appropriate in this category. Dogs competing at a jump height lower than the official jump height for their size may not achieve a placement over a dog jumping at its correct jump height.

DIVISIONS

Regional Events

Competitors must enter the division and jump height they NORMALLY compete in at DOCNA trials: Competition, Select, Veteran, Grand Veteran or Junior Handler and they must enter at the height they normally compete at. You may not ethically switch to a different (higher or lower) division or jump height at the championships.

Competition Division

The Competition Division is the most demanding division for both the dog and handler. The division Jump heights are 8", 12", 16", 20" and 24" and double jumps may be used at the Intern level and double and triple jumps may be used at the Specialist level. This division is also the most demanding in terms of standard course times in each event.

Entry Eligibility - Any physically capable dog over the age of 15 months may enter the Competition Division.

Select Division

The Select Division is somewhat less demanding than the Competition Division. Jump heights are reduced to 4", 8", 12", 16" and 20" in the Select Division. No double or triple jumps may be used. Standard course time for the Select Division will be 15% more than the Competition Division standard course times in each event. Entry Eligibility - Any physically capable dog over the age of 12 months may enter the Select Division.

Veteran Division

The Veteran Division is for those dogs that have reached 7 years of age, but are still physically capable of doing competitive agility or dogs being handled by anyone 60 years of age or older. Jump heights are 4", 8", 12", 16" and 20" in the Veterans Division. No double or triple jumps may be used. Standard course time for the Veterans Division will be 20% more than the Competition Division standard course times in each event. Please see rules at www.docna.com for special circumstances for jump heights called "Veteran Dog Opportunity".

Entry Eligibility - Any physically capable dog 7 years old or older or any physically capable dog that is handled by a competitor that is 60 years old or older may enter the Veterans Division.

Grand Veteran Division

The Grand Veteran Division is for those dogs that have reached 10 years of age, but are still physically capable of doing competitive agility or any handler 60 years old or older handling a physically capable dog 7 years old or older. Jump heights are reduced to 4", 8", 12", and 16" in the Grand Veterans Division. Competitors/handlers entering the Grand Veterans Division must choose to jump their dog at least 4 inches lower than their Select/Veteran jump height. Standard course time for the Grand Veterans Division will be 25% more than the Competition Division standard course times in each event.

Entry Eligibility - Any physically capable dog 10 years old or older or any handler 60 years old or older handling a physically capable dog 7 years old or older may enter the Grand Veterans Division.

Junior Handler Division

The Junior Handler Division is geared towards encouraging younger handlers to be involved in the sport. Jump heights are reduced to 4", 8", 12", 16" and 20" in the Junior Handler Division. No double or triple jumps may be used. Standard course time for the Junior Handler Division will be 20% more than the Competition Division standard course times in each event.

Entry Eligibility- Any physically capable dog handled by a competitor who is between the ages of 7 and 16 years of age may enter the Junior Handler Division.

Physically Challenged Dogs

Physically Challenged Dogs mainly includes, but is not limited to, canine amputees, visually or hearing compromised dogs. Our primary concern is for the safety of the dog. We acknowledge that canine health encompasses both the physical and the mental aspects of life. Physically challenged dogs that may otherwise be in good health and that display the desire and ability to safely execute required obstacle performances are welcome to enter and compete.

Entry Eligibility:

Canine amputees should acquire a letter from their veterinarian stating that the dog is capable of competing in agility and that the dog will not likely suffer any long term affects above and beyond what might be normal for dogs that engage in this sport. The letter should be available on request for view by the judge or trial committee. A judge and/or trial committee reserves the right to excuse/dismiss a dog from competition that appears to be in obvious pain or discomfort and/or to designate that a dog be limited to specific classes and/or be placed under a jump height restriction. The owner of the dog may appeal a judge's/appointee's trial decision to the DOCNA offices for a binding ruling.

DOCNA supports the desire of these dogs to play in agility and allows these dogs with the opportunity to earn qualifying runs and titles, but placements are not appropriate in this category. Dogs competing at a jump height lower than the official jump height for their size may not achieve a placement over a dog jumping at its correct jump height.

For Physically Challenged Dogs competing in the correct division and jump height that have visual or hearing challenges but have demonstrated the ability to perform at a higher level by either having competed in another venue or have completed training that establishes the team as safe to compete physically at a higher level are approved to compete in the division that they are eligible for and will compete with dogs in that Division and Height.

Physically Challenged Dogs – Requiring **Jump Height Exemption**

- **DOCNA supports the desire of these dogs to play in agility and be apart of championships and we extend these dogs with the opportunity to earn Certificates of Achievement and NAC Regional Medals.**
- **Placements are not appropriate in this category. Dogs competing at a jump height lower than the official jump height for their size may not achieve a placement over a dog jumping at its correct jump height.**
- **There, will be no qualifying scores awarded for titling purposes.**

Disabled/Handicapped Designation

Dogs On Course in North America, LLC is providing a special designation for disabled/handicapped exhibitors. Such exhibitors will be allowed extra time for qualifying purposes only. There will be a place on the entry form to designate this category. When entering as a disabled/handicapped handler, it is required that you enter all events with this designation. Dogs entered with handlers in this category will still be placed with the dogs jump height. The best time/most points will always place higher. **DOCNA trusts that only exhibitors who have documented medical conditions will enter this category.**

Disabled/handicapped handlers will receive additional time in titling events.

There is no beginner level offered at the DOCNA Championships. Beginners are welcome and encouraged to enter at the Intern level.

Description of DOCNA Championships Events

Championship Standard Agility - Standard Agility will challenge the handler /dog team with both work away sections and close proximity handling challenges. The handler/dog team must demonstrate the ability of the team to perform a variety of obstacles on the course while working as a smooth functioning team. All obstacles must be performed without fault and the team must meet the Standard Course Time requirements of the division and level.

- Standard will consist of 2 preliminary rounds
- The scores will be calculated as time plus faults and the scores from the two rounds will be totaled, with the lowest score placing highest. Dogs scoring in the top 25% (dogs with the lowest scores) in each jump height (minimum of two dogs) will go on to the 3rd round of Standard.
- Dogs scoring in the top 25% of the combined score of Rd #1 and Rd #2 (dogs with the lowest scores) in each jump height (minimum of two dogs) will go on to the 3rd round of Standard.
- After the Final round is run, all 3 scores from Round 1, Round 2, and Round 3 will be totaled and the lowest overall (cumulative) score is the Overall winner for the class. There will be up to 3 placement awards in each jump height in each division. The overall winner is determined by adding the scores from Round 1, Round 2, and Round 3 together (cumulative) with the lowest overall score being awarded the winner and regional "Standard Agility Champion" for this class.
- To be eligible to move to round #3 of Standard, competitors must have entered in both Round #1 and Round #2 of the event

Championship Jumpers - Jumpers is an opportunity for the dog and handler team to maneuver through a course of jumps at a very fast pace. The only obstacles on a Jumpers Course are JUMPS. Jumpers Courses will challenge the handler /dog team and have both work away sections and close proximity handling challenges.

- Jumpers will consist of 2 preliminary rounds
- The scores will be calculated as time plus faults and the scores from the two rounds will be totaled, with the lowest score placing highest. Dogs scoring in the top 25% of the (dogs with the lowest scores) in each jump height (minimum of two dogs) will go on to the 3rd round of Jumpers.
- Dogs scoring in the top 25% of the combined score of Rd #1 and Rd #2 (dogs with the lowest scores) in each jump height (minimum of two dogs) will go on to the 3rd round of Jumpers.
- After the Final round is run, all 3 scores from Round 1, Round 2, and Round 3 will be totaled and the lowest overall (cumulative) score is the Overall winner for the class. There will be up to 3 placements awards in each jump height in each division. The overall winner is determined by adding the scores from Round 1, Round 2, and Round 3 together (cumulative) with the lowest overall score being awarded the winner and regional "Jumpers Champion" for this class.
- To be eligible to move to round #3 of Jumpers, competitors must have entered in both Round #1 and Round #2 of the event

Traditional Gamblers - Traditional Gamble is an event that allows the handler/dog team to plan their own course, obtaining points along the way for completing obstacles up to 2 times each successfully for the specified opening period of time. At the end of the point accumulation period, the dog must successfully complete a work away challenge (gamble) at the required distance for level and division, and then stop the clock for time. The handler/dog team must be successful in both parts of this event to complete the challenge.

Strategic Time Gamble - Strategic Time Gamble is an event that allows the handler/dog team to plan their own course, obtaining points along the way for completing obstacles up to 2 times each successfully. There are two (2) parts to this event, a point accumulation period (opening) and a strategic gamble period (closing); the handler plans a course that will allow the dog to cross the finish line at as close to maximum time without going over. The handler/dog team must be successful in both parts of this event in order to complete the challenge.

Snakes N' Ladders - Snakes N' Ladders is a strategic game that has tunnels, contact equipment and weaves. At the Intern and Specialist Level the competitor is required to perform 1 set of 10-12 weaves, and 2 sets of 5- 6 weave poles. The handler strategically plans their course, with the goal being to complete all the contact and weave obstacles and cross the finish line as quickly as possible.

Trigility - Trigility is a team strategy game that tests the agility ability of the 3 members of the team to complete 3 types of agility on a regular agility course. The goal is to complete all 3 courses in the shortest amount of time and to have one team member successfully complete a mini gamble test. Competitors may team up with any handler/dog team at their Level (Intern or Specialist) regardless of Division. **All dogs must come from the same level - Specialist or Intern (beginner dogs may enter Intern).**

*** When entering Trigility, keep in mind that it is a team sport and as a competitor, you have an obligation to run and not let your teammates down by training in the ring or by scratching except in the event of an illness or injury. It is strongly suggested you enter as a team, and work with your teammates to have each member there. By entering this class, you are agreeing that your dog is reasonably proficient enough in agility to be able to negotiate a 9-10 obstacle sequence on a jumpers or standard course with two other dogs/handlers in the ring with you. You also understand that if you enter as a draw, you may be running with a dog and/or handler that skill level is not known.**

Teams that have members pull out or scratched except in the event of an illness or injury will have a 200 point fault assessed for each teammate not on the team. DOCNA will attempt to request volunteers for teammates that have scratched due to illness or injury for the remaining championship.

North America Challenge Event - This is a special agility run that is scored under the same rules and SCT as Standard Agility, with the exception that off courses are judged as elimination. North America Challenge Events will be more technically challenging courses. Each course will include 1 set of 10-12 weaves and may include an additional set of 5-6 weaves for all levels. In addition, courses may include the performance of 4 contact obstacles, multiple side changes, and additional discriminations.

Handlers must enter the highest level (Specialist or Intern) and division (Competition, Select, Veteran, Jr. Handler or Grand Veterans) that they qualified for in NAC prior to August 3, 2009.

SCORING

- Triglity, Snakes N' Ladders, Strategic Time Gamble and Traditional Gamblers will be run and scored and dogs will receive placements in the same manner as a normal weekend trial
- Jumpers and Standard will consist of 2 qualifying rounds. The scores will be calculated as time plus faults and the scores from the two rounds will be totaled with the lowest score placing highest. Dogs scoring in the top 25% of the combined total of Round #1 and Round #2 (dogs with the lowest scores) in each jump height (minimum of two dogs) will go on to the 3rd final round. The 3rd round will be scored as above to determine the regional "Jumpers Champion" and "Standard Champion".
- Standard and Jumpers each will consist of 2 preliminary rounds (each its own event)
- The scores will be calculated as time plus faults and the scores from the two rounds will be totaled, with the lowest score placing highest. Dogs scoring in the top 25% (dogs with the lowest scores) in each jump height (minimum of two dogs) will go on to the 3rd round of Standard or Jumpers...
- Dogs scoring in the top 25% of the combined score of Rd #1 and Rd #2 (dogs with the lowest scores) in each jump height (minimum of two dogs) will go on to the 3rd round of Standard.
- **After the Final round is run, all 3 scores from Round 1, Round 2, and Round 3 will be totaled and the lowest overall (cumulative) score is the Overall winner for the class. There will be up to 3 placements awards in each jump height in each division. The overall winner is determined by adding the scores from Round 1, Round 2, and Round 3 together (cumulative) with the lowest overall score being awarded the winner and regional "Standard Agility Champion" or "Jumpers Champion" for these classes**
- To be eligible to move to round #3 of Jumpers or Standard, competitors must have entered in both Round #1 and Round #2 of the event

North America Challenge.

- NAC will be scored in the same manner as a normal weekend trial. Regional placements will be awarded at both locations. Scores from both (locations) will be placed together and National Champion Awards will be presented based on these results.

AWARDS

- Regional awards will be presented for Standard, Jumpers, Traditional Gamblers, Strategic Time Gamble, Snakes N Ladders and Triglity.
- Standard and Jumpers will have awards for Round #1, Round #2.
- **After Rd #3 of Standard and Jumpers, awards will be presented for regional "Standard Agility Champion" or "Jumpers Champion" for overall scores from a cumulative score of Round #1, Round #2 and Round # 3 (lowest score, time plus faults). There will be no Rd # 3 individual awards, as this is a cumulative award**
- Regional and National awards will be presented for the North America Challenge Event.
- **There will be no qualifying scores awarded for titling purposes.**

Physically Challenged Dogs

- Meeting course time or designed time set by judge will be presented Certificates of Achievement
- DOCNA supports the desire of these dogs to play in agility and be apart of championships; and we extend these dogs with the opportunity to earn Certificates of Achievement and NAC Regional Medals.
- Placements are not appropriate in this category. Dogs competing at a jump height lower than the official jump height for their size may not achieve a placement over a dog jumping at its correct jump height.
- There will be no qualifying scores awarded for titling purposes.

WARNING!

Please keep your dog on leash, at all times other than when preparing to run, running or using a designated area for dogs off leash. Please clean up after yourself and your dog.

Keep your dogs out of the areas marked by "No Dogs" signs or designated as non dog areas at the briefing. This should generally include biking and riding paths around the facility, facility bathrooms, and landscaped areas, etc. Common sense should prevail.

DOCNA insurance rules: In the event of incident at Coors Event Center OR Orchard Hills Training Center, DOCNA requires that the owner of the dog report the incident to the show committee.

COLLARS IN THE RING

Dogs on Course in North America, LLC leaves it up to the exhibitor as to whether or not they would like to leave a collar on their dog during competition. For the purposes of safety, DOCNA strongly recommends that dogs run WITHOUT a collar. There have been documented cases of dogs getting collars stuck on jump stanchions or contact equipment hinges. If you choose to run with a collar, you do so at your own risk. This policy will be evaluated from time to time to determine if there are any safety implications associated with competing while wearing a collar.

For those who choose to run with a collar, a quick release collar is suggested. Acceptable collars may be flat or rolled collars with a buckle or plastic release clasp. A collar may have an attached info plaque riveted onto it, or information stitched into it. It is also acceptable to keep tag bags that contain license tags and owner information on a collar as long as it fits securely on the collar. Collars with dangling tags, martingale type loops, halti's, gentle leaders, harnesses, and any electronic training devices (shock, bark, pinch, citronella, etc) will not be allowed in the ring. Should a judge feel that a collar does not fall within DOCNA standards or is otherwise unsafe, they will have the authority to request that the exhibitor remove it from the dog or not run

- **Allowing the above collars in the ring was designed to assist the handler should a dog escape or wander off from the agility trial; the dog would have identification to assist the handler in finding their dog.**
- **At no time should this collar be used as a training device at the start line, nor should the dog be dragged to the line by the collar. The handlers hand should be free and clear of the collar prior to starting the run.**
- **Competitors that use the collar as a holding device, bowling the dog to start by holding the collar shall receive a 5 fault penalty.**
- **In rigidity, once the dog is finished, you are welcome to hold this collar in a positive manner.**

TRAINING DEVICES

The following devices are not allowed at the trial site: shock collars, bark collars, pinch collars, electronic training/collar devices.

ASSUMPTION OF RISK, STATEMENT OF RESPONSIBILITY & WAIVER OF LIABILITY

I (We) understand that agility is an activity that is held in the presence of other dogs and their owners/handlers. I (we) also understand that the participation of my dog and myself in agility will require some physical activity on my part and on the part of my dog. I also understand that this activity will involve some running, jumping, and the use of obstacles such as tunnels, scaling planks, jumps, and tires which could result in injury to me, to my dog, or others. I represent that I am in good health and my dog is in good health and we are both in physical condition to participate in the sport of dog agility. I further represent that my dog is friendly and not a hazard to persons or other dogs; **that I am participating at my own risk**; and that I will not hold the trial club/group or any committee member, nor the sanctioning organization Dogs On Course in North America, LLC liable for any loss, injury, illness, expense or other hardship that may arise in connection with my participation and/or my dog's participation in the activity. It is distinctly understood that every dog participating is in the care and custody and control of his owner or handler at all times on the premises. I further agree to assume full responsibility and liability for any and all injury or damage caused in any way by my dog(s) or myself. Any competitor/exhibitor whose dog(s) and/or children create unnecessary disturbances or repeatedly engage in unsafe or disruptive behavior, may, at the discretion of the Trial/Show Committee be asked to leave the show site. In such case, no refund of fees paid will be made. The club or group or Dogs on Course in North America, LLC. will not be responsible for the loss or damage to any dog competing; or for the possessions of any competitor whether the result was by accident or any other cause.

I (We) understand that DOCNA **leaves it to the discretion of the exhibitor as to whether or not they would like to leave a collar on their dog during competition. For the purposes of safety, DOCNA strongly recommends that dogs run WITHOUT a collar.** There have been documented cases of dogs getting collars stuck on jump stanchions, contact equipment hinges and/or other equipment or obstacles. If you choose to run with a collar, you do so at your sole risk.

I (We) understand that in choosing to run with a collar, a quick release collar is suggested. Acceptable collars may be flat or rolled collars with a buckle or plastic release clasp. It is acceptable to keep tag bags that contain license tags and owner information on a collar as long as it fits securely on the collar. Collars with dangling tags, martingale type loops, halti's, gentle leaders, harnesses, and any electronic training devices (shock, bark, pinch, citronella, etc) will not be allowed in the ring.

It is agreed that the laws of the State of Arizona shall govern the interpretation of this Agreement.

In addition, I have read the information in this premium pertaining to Walk thrus, and by signing this agreement understand it is my responsibility to be available for all walk thrus.

Competitors through submission of entry, acknowledge that they are knowledgeable of DOCNA rules and regulations and agree to abide by these rules and those of the club/group hosting this trial.

I have read, understand and acknowledge the above Agreement and ASSUMPTION OF RISK, STATEMENT OF RESPONSIBILITY & WAIVER OF LIABILITY

Furthermore, I understand that the championships schedule is tentative and regional events such as Gamblers, Time Gamble, Snakes 'N Ladders & Trigrility may be rearranged to occur on different days depending on number of entries. The schedule may end up different in the east and the west due to differences in entry numbers.
